

The Liverpool and District Cricket Competition

Constitution of the Club and Ground Committee - 2012

Composition:

The Committee will comprise, as a minimum, all members of the L&DCC Management Committee, those responsible for collating the data on the MCUA Panel umpires' reports, one representative from each of the Premier, First and Second Divisions to be elected at the Annual General Meeting, and an MCUA nominee.

Meetings:

Meetings will be held at approximately quarterly intervals to coincide with the monthly meetings of the Management Committee and the business will be conducted before the start of the Management Committee meeting for the convenience of the league representatives.

The Club and Ground Chairman will chair the meetings and minutes will be taken. Four members of the Committee will constitute a quorum.

Purpose:

The purpose of the Committee is to:

- (a) determine minimum standards for club and ground facilities appropriate to each L&DCC division;
- (b) advise the **Feeder Leagues** on the standards their clubs should aim for and those necessary for promotion to the L&DCC Second Division;
- (c) assess the grounds and facilities of all existing L&DCC member clubs and of clubs which are candidates for promotion against the standards, taking account of MCUA Panel umpires' reports and on site assessments where appropriate;
- (d) make recommendations to clubs for improvements (with time scales) where facilities are deemed inadequate, either generally or specifically for promotion to a higher division; and
- (e) check that such improvements are carried out, failing which make recommendations to the Management Committee for the barring of promotion or in extreme circumstances relegating a club to a lower division. Such relegation would be in lieu of a normally relegated club.

Note:

Members of the Committee (preferably more than one) will carry out on site assessments in the presence of club officials. Photographic evidence is recommended.
